

SiloShield™ CO₂ & N₂ Fumigation

Guardian of Quality, Defender of Commodity

Available in 20 feet and 40 feet variants

(Customized Sizes Available)

Eliminate pests, preserve quality, and ship residue-free with SiloShield

Keep oxygen, pests, and mold out with airtight storage - CO₂ and N₂ ready

Zero residues. Zero rejections. Safe, sustainable storage.

Locks in freshness, aroma, and potency for long-term storage

No Residues
No Rejections

How SiloShield™ Works

1

Your Cargo is carefully loaded into Siloshield high-barrier storage liners

2

Oxygen levels are reduced to create a pest-hostile environment

3

CO₂ or N₂ is introduced to build a controlled internal atmosphere

4

Excess gases are removed, maintaining a precise vacuum seal

5

Existing insects are eliminated, and new infestations are prevented during long-term storage

Protect What Matters

- ✓ Prevent loss, avoid rejections
- ✓ Preserve quality, protect your reputation
- ✓ Deliver confidence with every container
